January 28, 2002

Attorney General John Ashcroft, Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Dear Mr. Ashcroft:

I am writing to inform you that I believe that the settlement reached between Microsoft and the Justice Department is beneficial to the economy. If litigation continues, the effect on the economy and the industry will be far more detrimental than it has been. When issues like this come about, consumer confidence drops, thus affecting the industry.

This suit was designed to help bring about the well-being of the technology industry, and help bring get economy back on track. The settlement guides Microsoft to design all future versions of Windows to be compatible with non-Microsoft products. Microsoft has also agreed to the establishment of a three-person "Technical Committee" that will monitor its compliance to the agreement.

It is vital that all action that the federal government is taking regarding this case be stopped. The taxpayers do not have the resources to have this case carry on any longer. I urge you to finalize this settlement and allow Microsoft to return to leading industry.

Sincerely,

Angela Davis  
President
